

ROUNAK SAHA

Frontend Developer / Full-Stack Developer/ MERN Stack Developer/ Software Developer

+91-9748996248 @ a96696713@gmail.com linkedin.com/in/rounak-saha-jay013
https://github.com/Rounak-Saha13 Kolkata, India

TECHNICAL SKILLS

JavaScript (ES6+)		Typescript
HTML5	CSS3	Python
JAVA	SQL	NoSQL
React	Next JS	
React Router		Material UI
Bootstrap	Styled Components	
Axios	Responsive Web Design	
Node.js	Express.js	Flask
REST API Development		JWT
Middleware	MongoDB	
MySQL	PostgreSQL	
DynamoDB	Vercel	Render
AWS	Firebase	
Git & Github		Docker
Prisma	VS Code	
IntelliJ IDEA		

CERTIFICATIONS

Certified in React and React Native

E Job India

12/2023 - 03/2024

Web Development

CodSoft

12/2023 - 03/2024

Service Desk Analyst

EduBridge Learning Pvt

12/2026 - 03/2026

EDUCATION

B.Tech in CSE from Swami Vivekananda Institute of Science & Technology (2020-2024)
www.enhancv.com

SUMMARY

Full Stack Developer with **2 years of experience** developing scalable web applications using the **MERN Stack**. Experienced in designing responsive React applications, developing secure REST APIs with Node.js and Express.js, and managing MongoDB databases. Skilled in authentication using JWT, API integration, cloud deployment on Vercel and Render, and building AI-powered applications. Passionate about writing clean, maintainable code and delivering intuitive user experiences.

EXPERIENCE

Technical Developer

Trimplin Group

02/2024 - 02/2026 Kolkata, India

An EdTech company developing scalable digital learning platforms and educational technology solutions.

- Designed and developed responsive web applications using React.js and modern JavaScript.
- Built RESTful APIs using Node.js, Express.js, and Flask.
- Worked with MongoDB, MySQL, PostgreSQL, and DynamoDB for application data management.
- Developed secure authentication systems using JWT and role-based authorization.
- Integrated third-party APIs including AI services, payment gateways, analytics, and communication platforms.
- Collaborated with UI/UX designers and product teams to deliver scalable educational platforms.
- Optimized application performance and improved user experience across desktop and mobile devices.
- Maintained code using Git version control and Agile development practices.

PROJECTS

Hospital Management System, MERN Stack, OpenAI API, Material UI

12/2024 - 03/2025

React • Node.js • Express • MongoDB • Material UI

- Built a hospital management system for patient registration, doctor management, appointment scheduling, medical records, billing, and admin control
- Integrated OpenAI's API for AI-powered prescription suggestions
- Developed secure RESTful APIs and role-based access with Node.js, Express.js, and MongoDB
- Implemented a modern, responsive frontend with React.js, React Router, Axios, and MUI

AI Image Generator (MERN)

2025 - 2026

https://ai-image-generator-nfwi-taupe.vercel.app/

React • Node.js • Express.js • MongoDB • Pollinations AI • Material UI

- Built a full-stack AI image generation platform using the MERN stack.
- Integrated Pollinations AI API for real-time image generation.
- Implemented JWT authentication and secure user management.
- Added image search functionality and community gallery.
- Stored generated images in MongoDB.
- Deployed frontend on Vercel and backend on Render.

EDUCATION

ISC in Science from Puroshottam
Bhangchandka Academic School
(2018-2020)

ICSE from Mansur Habibullah
Memorial School (2003-2018)

PROJECTS

Vyvora - Fitness Tracker

📅 03/2026 - 04/2026

🔗 <https://vyvora-fitness-tracking-app.vercel.app/>

MERN Stack | React.js | Node.js | Express.js | MongoDB | Material UI

- Developed a full-stack fitness tracking web application using the MERN stack to help users monitor their health and fitness goals.
- Implemented secure user authentication using JWT and role-based access for personalized dashboards.
- Built features for workout logging, calorie tracking, BMI calculation, goal setting, and progress visualization.
- Designed responsive and interactive user interfaces with React.js and Material UI, integrating RESTful APIs for seamless frontend-backend communication.
- Managed user data efficiently using MongoDB and deployed the application using Vercel (Frontend) and Render (Backend).
